- (2) 3701 North Broad Street (approximately four miles north of above on Broad Street) six boards on third floor of large office building
- (3) 1732 South Broad Street (two miles south of Cherry Street on Broad) six boards on first floor of small one-story building
- (4) 3207 Kensington Avenue (four miles north-easterly from Cherry Street) seven boards on fifth floor of bank building

All above locations in areas experiencing heavy and continuous traffic at all hours. There were no guards at the latter three locations. u

At approximately 2:00 a.m. on 2/7/70 Philadelphia Police summoned by GSA guards at Cherry Street discovered that file drawers in the board area had been opened and records strewn about the floor. [redacted] (white female) was found hiding in an adjacent men's room and [redacted] (white male, age 22) was arrested on the street in a car apparently waiting for [redacted]. A Chevrolet van was also found in an alley adjacent to the building. It contained burglary tools and a quantity of liquid bleach apparently for defacing written records. u

The Philadelphia Police immediately checked the other three locations and discovered that entry had been effected at both North Broad and Kensington Avenue. u

At North Broad file drawers had been opened and 11 large Army-type duffel bags had been filled with registration cards from the various boards. These bags were piled near a rear fire tower exit as if the perpetrators were preparing to move them down to an exit into an alley at the rear. The complete file of cards from one board (approximately one bag full) was missing and has never been recovered. u

PH 52-7165-SUB N

At Kensington many files had been removed from the drawers and almost the entire area was strewn ankle deep in paper, much of which had been torn into pieces. u

It was determined that the Philadelphia Police had received information from a confidential source to the effect that Rev. PHILIP BERRIGAN had been [redacted]

[redacted] Philadelphia, prior to 2/7/70, that a [redacted] and that suspicious meetings had been observed at the house. u

Therefore, immediately upon discovery of the above entries search warrants were obtained on 2/7/70 for the premises and for a 1965 Chevrolet station wagon parked on the street into which the nuns had been observed loading a duffel bag very similar to the ones found at North Broad Street and other baggage. u

The search resulted in the recovery of a large quantity of documentary evidence showing that the action against the draft boards had been planned for at least a month previously and apparently the house at [redacted] was a "control center" or "headquarters" from which extensive surveillances and planning as well as the final strike itself were conducted. It further appeared that many of the individuals who participated in the final action had divested themselves of all personal identification of any kind and that it was this material that the nuns were loading into the station wagon, apparently to be removed from the area and restored to its owners at a later time. u

No action was apparently carried out at the South Broad Street location although planning was done for this site. u

There was no evidence of forced breaking and entering at any location and from plans it appeared that individuals or small groups entered the buildings during

PH 52-7165-SUB N

regular business hours and secreted themselves until such time as it was expedient to open fire doors and other entrances to admit other members of the group. U

From plans it is estimated that some six or eight persons carried out the actual destruction or removal of records at each site; however, over 40 persons were apparently involved in the overall operation from its inception. U

Attached hereto for the information of all receiving offices are copies of various pieces of the above-mentioned material which show the detailed and meticulous manner in which the operation was prepared for and finally carried out. These copies are in five separate sections headed: "General Over-all Planning," "B & Cherry" (Broad and Cherry), "Kensington," "N.B." (North Broad), and "North Broad Street." U

Jan. 22, Late afternoon

The Three officers surrounding the 4th Floor
422, 423, & 417 were Unit,
with no nameplates. Downstairs in the lobby,
422, 423, & 417 were not listed as officers.

Also, on the door of 420 was a small note
saying: Send mail for Mail Advertisements
Corp. and [redacted] 417, 423 to [redacted]

[redacted] Supt's office 401.

[redacted] - N. Broad, 22nd, afternoon ②

In stairwell, there was a lighted light right next to 3rd floor door into draft lobby, about 5 feet from door knob.

~~At top~~ At top of stairwell, door is very old and hadn't been used for a long time before we went up. There is also a window there which we opened to climb out onto roof. After trying the door 3 times, it gave and opened.

[redacted] - N. Broad, Thursday, 22nd ③

But the door is not needed; the window can be climbed out if a person is athletic. The lock on the door was a very simple turn-to-unlatch, turn-to-latch thing.

The stairwell was heated, although the top part where we were was a little cooler than the rest of the stairwell.

[redacted] N. Broad - 22nd, Thursday ④

From the roof, there were two possible places to signal from, one very good. To the north, next to Display Fixtures a parked car could be seen from the roof. But a better place is to the ~~VENUE~~ between an Acme and The Drug House, off of 10th & Erie. A car between these two buildings can be seen very clearly from the roof.
